### TIER II EXTENSION APPROVAL

Dear Mr. Verson:

On August 18, 2011, the Department of Environmental Protection (“the Department”) received a Tier II Classification Extension Submittal via eDEP prepared by Lyons Witton of New England Environmental, Inc. (NEE). It is the intention of the Cutlery Building Associates to re-evaluate the feasibility of a permanent solution under the MCP prior to the five-year anniversary of the Class C RAO-Ps, which will be February 16, 2016.

The Tier II Extension is approved and will expire on **August 8, 2012**. In accordance with 310 CMR 40.0560(7), if a Response Action Outcome Statement or Remedy Operation Status is not submitted to the Department prior to the expiration of the Tier II Extension you are required to submit a Tier II Extension Submittal at least 45 days prior to the date of its expiration.

Please be advised that if a full Class C-1 Response Action Outcome is filed for the entire disposal site, further Tier II Extensions will not be necessary to submit.

*Northampton, 1-13320*

*Tier II Extension Approval*

If you have any questions, please contact **Ben Fish** at 413-755-2285.

Sincerely,

Richard M. Green
